

MASTERPEACE WALK

GEORGIA 2020

May 27 - June 6 2020

LEARNING FROM NATURE

BUILDING BRIDGES BETWEEN CULTURES

NEW INSIGHTS IN YOUR PERSONAL LEADERSHIP

With great pleasure we invite you to join us on an unique 10-day experience in Higher Adjara Area in Georgia. Adjara (Adzharia or Achara) is located in the southwest of Georgia. All year long immersed in green forests and washed by the Black Sea this ancient land situated at the bottom of mountain ridges of Minor Caucasus is fabulously beautiful and original, and not yet discovered by tourists.

You will fully enjoy and learn from nature and experience the local culture and rituals as for 6 days you will walk, live and sleep in nature.

This journey is a deeper experience in which you will connect, discover and learn from nature, culture and your own personal leadership. Giorgi Azariashvili and his team of MasterPeace Georgia will host this event and invites you to join. You will enjoy the company of a group of 40 colourful people; 20 local young future (social) entrepreneurs and 20 westerners. Many of the young talented people in Georgia leave the country because of the lack of jobs, and the outlook on unemployment. MasterPeace Georgia developed an innovative program to prevent this so-called brain drain with an empowering initiative for future social entrepreneurs called 'Movement STAY'. This program will be enabled by your participation. Enjoy the company of unique warm-hearted people, walk and talk about life and work in challenging times, learn about some of the rich Georgian traditions and the work of our local MasterPeace Club.

You will

- Disconnect from western civilization
- Reconnect with nature and yourself
- Walk 6 days in an area of 1000-2000 meters altitude
- Enjoy a healthy environment and traditional fresh food
- Add value to the local community

"Georgia is famous for its hospitality and generosity. Georgian wisdom says: "a guest is the God-sent", thus, MasterPeace Georgia and our friendly team invites you on the first ever MasterPeace Georgia Walk, which will take place in the mountainous Adjara region."
